PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/523,589	Applicant(s) TAKAHASHI ET AL.	
	Examiner Karl E. Group	Art Unit 1755	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Response to Amendment

1. It is requested that all future amendments not include the text of cancelled claims. Not complying with 37 CFR 1.121 by including the text of a cancelled claim may be accepted however this is only in the case of otherwise allowable claims. Applicants are still required to comply with 37 CFR 1.121 or any future amendments will be considered non-compliant. It should also be noted the terminology recited in the MPEP supplied by applicants states the office may accept such an amendment.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 10 and 11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The terminology "single calcination zone" is not considered to be supported by the instant disclosure. It is not clear what is considered by zone and this term is not defined in the disclosure. .

Claim Rejections - 35 USC § 103

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Art Unit: 1755

5. Claims 10 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Foulger et al (5,630,995) for reasons of record.

Applicants' argument that Foulger et al teach multiple calcinations zones rather than a single calcinations zone is not persuasive in overcoming the rejection. In order for the instant invention to achieve the desired temperature the calcinations temperature must be raised and then lowered not unlike that in Foulger et al. In fact applicants disclosure teaches a tunnel kiln may be used (see page 16, line 25). The examples do not recite whether a tunnel kiln or a rotary kiln is used but both rotary kilns and tunnel kilns have multiple zones although rotary kilns are not required to have zones. Tunnel kilns must have heating zones. Clearly the instant invention was not filed with the intention to exclude zones.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karl E. Group whose telephone number is 571-272-1368. The examiner can normally be reached on M-F (6:30-4:00) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
